

DESCRIPTION

The DynaEnergetics Infinity Firing Panel is designed for use with the DynaEnergetics electronic detonators/ igniters as well as DynaSelect and DynaStage plug and perf solutions. The Infinity Firing Panel can be used stand-alone or controlled by software. The highly intuitive panel and software (optional) allow the operator to safely test, monitor and reliably initiate a single electronic detonator/ igniter or up to 20 DynaSelect or DynaStage guns and set one bridge plug on a single wireline run. The Infinity Firing Panel has a dual wireline drum output, which enables the operator to switch from one drum to another without having to re-connect the panel.

FEATURES

- Computer less (standalone) Plug-n-Perf or single shot operation
- Software controlled Plug-n-Perf or single shot operation
- Fully RP 67 compliant with safety key
- Supports instant initiation (on the fly shooting)
- Improved shot detection
- CCL signal output to monitor tool string movement / plug setting
- Real time data / event recording to USB storage medium
- Dual wireline drum output
- 19" Rack-mounted

SPECIFICATIONS

Infinity Firing Panel	
Part No.	2329193
Dimensions (mm)	482.6 x 88 x 165.2 (19" rack mountable)
Weight	2.6 kg
Logging Line In Connection	BNC
Logging Line Out Connection 1	BNC
Logging Line Out Connection 2	BNC
Supply Panel	110 VAC to 240 VAC, 50 - 60 Hz
Maximum Output Current in Operate Mode	200 mA
Maximum Output Voltage in Operate Mode	30V

Note: Product condition must be monitored, inspected and maintained regularly to ensure proper service in accordance with DynaEnergetics guideline. Failure to do so may result in personal injury and/ or property damage. For questions please contact your DynaEnergetics representative.
